- Time Management & Task Prioritization
- Attention to Detail & Quality Focus

EDUCATION

Bachelor of Science in Entrepreneurship and Business Management

National Open University of Nigeria

2019 – 2026

CERTIFICATIONS AND TRAINING

- Advanced React — Coursera (2023)
- The Ultimate React Course-Udemy (2026)
- Advanced CSS and SASS — Udemy (2023)
- JavaScript Application Programming — Alison (2022)
- HTML, CSS & JavaScript for Developers — Coursera (2022)

PROFESSIONAL SUMMARY

Driven by a passion for building high-performing digital experiences, I develop scalable web applications using React.js, Next.js, JavaScript, and TypeScript. My work focuses on transforming UI/UX designs into responsive, reusable components with strong attention to performance, accessibility, and SEO. I integrate REST APIs, CMS platforms, and third-party services to create seamless user experiences. I specialize in Redux state management and modern frontend architecture. Working within agile remote teams, I consistently deliver production-ready solutions that improve engagement, optimize performance, and enhance overall product quality across diverse business environments and user needs.

PROFESSIONAL EXPERIENCE

Frontend Developer

Marvel Creative Media — Lagos, Nigeria

Nov 2019 – Present

- Building and optimizing responsive, high-performance web applications using React.js and Next.js, ensuring seamless user experiences across devices
- Translating UI/UX designs into scalable, reusable component architectures with clean and maintainable code structure
- Integrating REST APIs and CMS-driven content systems to enable dynamic data rendering and real-time content updates
- Enhancing application performance through code splitting, lazy loading, and frontend optimization techniques for faster load times
- Collaborating with designers, backend engineers, and product teams in agile workflows to deliver production-ready features within deadlines

WordPress Developer

Proxynet Communications Ltd — Lagos, Nigeria

Jun 2019 – Nov 2019

- Developed and maintained responsive, CMS-powered websites with strong focus on usability, responsiveness, and cross-browser compatibility
- Integrated external APIs and third-party plugins to extend website functionality and improve user interaction experiences
- Customized frontend layouts and themes to align with brand identity and improve visual consistency across platforms
- Optimized website performance and structure, contributing to improved page speed and better user engagement metrics
- Supported content deployment and website updates while ensuring minimal downtime and smooth user experience

WordPress Developer

Elite Logistics and Development Ltd — Lekki, Lagos

Jan 2019 – Jun 2019

- Redesigned and enhanced website frontend interfaces to improve navigation flow and overall user experience

LANGUAGES

- **English:** Fluent

REFERENCES

Available Upon Request

- Implemented responsive design techniques to ensure optimal display across mobile, tablet, and desktop devices
- Improved UI structure and layout consistency, leading to measurable reduction in bounce rates and better engagement
- Managed website updates, content adjustments, and plugin configurations to maintain functional stability
- Collaborated with stakeholders to refine visual presentation and align web assets with business objectives

SELECTED PROJECTS

MarvelMarts – E-commerce Platform

<https://marvelmarts.com>

- Developed a scalable e-commerce frontend application using React.js, Next.js, and TypeScript.
- Implemented dynamic routing, reusable UI components, and responsive product interfaces.
- Integrated backend APIs for product management, authentication, and order processing workflows.
- Focused on performance optimization, clean architecture, and mobile-first responsiveness.

Marvel Creative Media Website

<https://marvelcmmedia.com>

- Designed and developed a responsive corporate website using React.js and Next.js.
- Integrated CMS backend systems for real-time content management and updates.
- Optimized performance, accessibility, and cross-device compatibility for improved UX.

Admin Dashboard Systems

- Built functional dashboard interfaces for user and content management systems.
- Implemented role-based access views, structured data tables, and form-driven workflows.
- Designed with emphasis on usability, scalability, and reusable component architecture.

Business & Corporate Websites

<https://wuraolaroyalfarm.com>

- Developed SEO-optimized and performance-focused frontend interfaces for business websites.
- Ensured fast loading speed, responsive layouts, and consistent branding across devices.
- Integrated CMS systems for efficient content updates and management.
